

# SIMPLIFY THE DAY-TO-DAY OF ALL THOSE INVOLVED AT THE HEART OF TRAINING

Adesoft provides solutions for planning and scheduling of training activities that simplify the day-to-day of all those involved while elevating planning and scheduling to a strategic level.

## PLANNERS

A solution adapted to the complexity and density of training catalogs, allowing the automation and optimization of planning while respecting any defined constraints.

## TRAINEES AND TRAINERS

Through improved planning processes, the experience of learners and trainers can once again become a priority, with quality scheduling and monitoring of activities in real time.

## DIRECTORS

A solution that facilitates decision-making and management by monitoring KPIs and modelling "what if" scenarios to define iso-resource growth objectives.

## CIO

The Adesoft solution has been designed to be easily integrated with most information systems currently available on the market.

## LONG-TERM SUPPORT

Our teams of experts and consultants provide support throughout the entire project in order to solve your challenges and help make planning a strategic focus for development.
